

# digitisation of old drawings

We provide scanning & indexing of drawings, maps, plans & documents and store them on CD/DVD/Web in simple searchable folder structure. This reduces searching time for originals and frees up storage space.

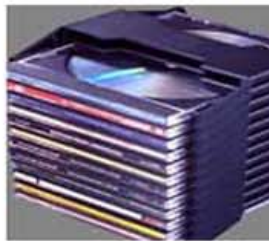

- Big savings in rent and Insurance cost
- No more lost drawings
- Prevention against any further deterioration
- Easy to convert in CAD and MicroStation format
- Security against fire and other disasters
- Indexing system ensures fast retrieval
- Easy to distribute by e-mail/FTP/CD/Web
- Customised searching application development
- Option for search, zoom, print, publish etc
- Easy integration with existing system, our drawing management system is also available
